Dear Matter Labs Recruiting,

My name is Ryan Krellwitz and I would like to thank you for the opportunity to apply for the Operations Lead position at Matter Labs. After reviewing the job description, it's clear you are looking for someone with excellent leadership, communication and problem solving skills, as well as experience scaling teams and systems within emerging industries. With my background and experience I am certain I have the ability to excel at this job.

I am a self-motivated team leader who is dedicated, enthusiastic and proud of a job well done. Through my experience managing growth, sales and customer service at my own companies, as well as producing large scale events, I have a wide range of skill sets that are directly relevant to this role. Improving internal processes, inspiring teams to go above and beyond, and troubleshooting complex holistic issues on rapidly changing timelines are all strong abilities I have. Overall, my leadership and interpersonal communication skills and ability to problem solve on the fly would make me a valuable asset to Matter Labs. I invite you to review my resume for further details.

My passion for cryptocurrency dates back to 2013 when I first began attending, hosting and presenting at local Bitcoin Meetups. It has led me to many opportunities within the industry, including participating in a mining cooperative and helping scale one of the largest cryptocurrency exchanges in the world. The freedom, personal autonomy and accessibility to financial services that cryptocurrency offers everyone is what inspires me to want to continue contributing to the space.

After reviewing my resume I hope you will agree that I am the type of candidate you are seeking. I look forward to sharing more about myself and hearing more about Matter Labs. Please contact me at 503-451-0897 or ryankrellwitz@gmail.com to set up a convenient time to speak further.

Thank you,  
Ryan Krellwitz
